A JOURNEY THROUGH FURNITURE CREATION

# From Frame to Finish

# 1

## IT BEGINS WITH YOU

The journey begins with you, choosing the perfect combination of details to bring your vision to life. Start by selecting the frame number that best suits your style and space. From there, personalize the finish color, nail or welt details, and your desired cover option. Whether you prefer one of our premium stock leathers and fabrics or want to supply your own material, every choice is yours to make!

## START WITH THE FINISH

Once you place your order, your frame is pulled and moved to our finishing department, where expert artisans apply your selected wood finish.

This step enhances the natural beauty of the wood while protecting it for years to come. Every finish is carefully applied by hand, ensuring a flawless, polished look that elevates the piece.

# 3

## HERE COMES THE SUPPORT

In the Spring-up department, the frame begins its transformation into a foundation of unmatched comfort and durability. Skilled craftsmen carefully add webbing and springs before completing the 8-way hand-tied process. This traditional technique ensures optimal support, even weight distribution, and lasting resilience, creating a base that guarantees superior seating comfort for generations.

### CUT TO ORDER

Next, the leather or fabric is meticulously cut to fit your chosen frame. For patterned materials, our artisans use their expert skills to ensure seamless pattern matching, aligning every detail perfectly. This precision work is essential for achieving a flawless, cohesive look, showcasing the artistry and attention to detail that sets luxury furniture apart.

### TAILORED TO PERFECTION

The cut cover is then passed to our skilled sewing team, where every piece is stitched with care and precision. Using time-tested techniques, they create strong, clean seams that enhance both durability and aesthetic appeal. Each stitch reflects our commitment to quality and ensures that your furniture will not only look stunning but stand the test of time.

### MADE WITH CARE

In the final stages, the leather furniture is upholstered by our talented team of 2nd and 3rd generation upholsterers. With decades of experience and a passion for their craft, they carefully shape and secure the leather to the frame, ensuring a flawless finish. Their expertise and artistry breathe life into the furniture, transforming it into a masterpiece ready to become the centerpiece of your home.

### THE FINISHING TOUCH

To complete the piece, the finishing touches are applied with meticulous care. Whether it's hand-applied nails or expertly crafted welt detailing, these final elements add a layer of refinement and character to the furniture. Our talented nailer ensures each nail is perfectly aligned, enhancing the overall elegance and showcasing the unparalleled craftsmanship of your custom piece.

### ONE LAST LOOK

Before leaving our workshop, the finished furniture undergoes a thorough inspection to ensure every detail is perfect. From the stitching to the finish, nothing is overlooked.

Once approved, the piece is carefully wrapped and boxed with protective materials to safeguard it during transit.

### THE REAL STORY BEGINS

At last, your custom leather furniture arrives at its new home, ready to become a part of your story. Designed to offer both elegance and durability, it's more than just furniture—it's an heirloom, built to be loved and cherished for generations. With every sit and every glance, it brings comfort, style, and the timeless craftsmanship that makes it truly *one of a kind*.
